Dear Peter,

Renovation work at 3 Jacaranda Drive, Cape Cabarita

Now that we have completed furnishing our beautiful new room we would like to take this opportunity to thank you for converting our rarely utilized internal courtyard into a functional addition to our downstairs living area. Indeed, this is not an addition as the work has been integrated in such a way that the area forms a seamless extension of our living area and retains natural light in the middle of the house through an innovative atrium roof. Also, the work carried out significantly adds to the value of our property.

Please pass on our appreciation to your tradesmen for the professional way they carried out their work with minimum disruption, always leaving the house clean and tidy. The quality of the work carried out far exceeds work we have had done by other companies – second best was never an option with any minor defects picked up and attended to promptly and without question.

We would have no hesitation recommending your work to any prospective client.

Merry Christmas, best wishes and good health for the New Year.

David and Margaret Croft,

3 Jacaranda Drive.

Cape Cabarita. 2137.
