During 2008 Austilt Constructions did a renovation on our home. Peter Williams' Company was a wise choice, coming with strong recommendation from coming people who had also used his services.

Peter's work is of the highest quality and our friends and family have been most impressed by the way he changed the look of our home. Peter gave us helpful advice on colours and ideas, and organized his team very well. Each day our place was left spick and span. As we lived here whilst the work was in progress Peter always accommodated our comings and goings. He is such a trustworthy man, we had no worries at all simply handing over our keys, as Peter and his team treat your home as if it were theirs. Peter always goes the extra mile fixing many extra little things for which we have been most grateful. If anything is not to his satisfaction, he insists on it being done again until he is happy.

Peter is a perfectionist and one of the most fastidious people we have known, which is why he and his company are fabulous builders. We would highly recommend Austilt Constructions to anyone, should they require their services.
